

The logo for DCS (Drilling, Crushing, Screening) is prominently displayed in the center of the image. It consists of the letters 'DCS' in a bold, white, sans-serif font. The letter 'D' is partially filled with a blue color, and there is a blue circular element between the 'D' and the 'C'. The background of the entire image is a dark, atmospheric photograph of a large-scale mining or quarrying operation. In the center, a complex industrial structure is visible, featuring two large red vertical components that resemble drill rigs or crushers, supported by a network of yellow and white metal beams. Below this structure, a large concrete retaining wall is visible, with a yellow vertical element extending downwards. The foreground shows a steep, rocky slope with some blue plastic sheeting. The overall scene is set against a dark, forested hillside under a twilight sky.

DRILLING CRUSHING SCREENING

The Sandvik logo is located in the bottom center of the image. It features a circular icon with a stylized, multi-colored pattern (resembling a globe or a drill bit) to the left of the word 'SANDVIK' in a bold, white, sans-serif font.
